

The J6S Tracker

A secure global asset
tracking and incident
management platform

A flexible and dependable solution for tracking users, recognising emergency situations, communicating internationally, and delivering effective responses.

A single platform, offering a plethora of solutions

J6S Tracker

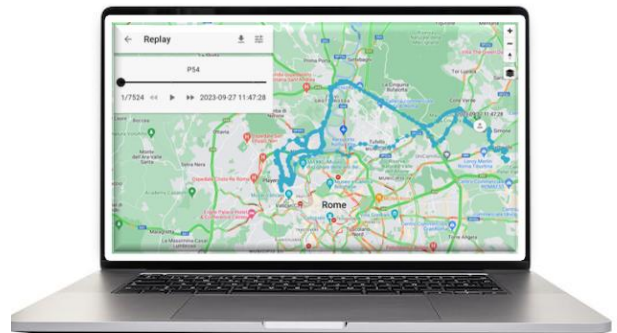

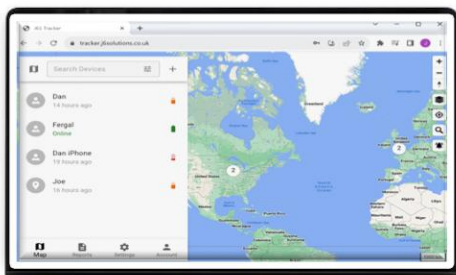

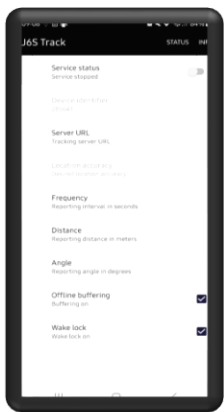

J6S Manager

The J6S Tracker & Manager applications are now available on all Android and iOS devices. The management Web GUI can be accessed from any internet browser giving your organisation complete control over assets anywhere in the world. Various GPS trackers & beacons can also be integrated into the service.

J6 Solutions technology empowers organisations to track, oversee, safeguard, and communicate with solitary workers and travelling employees worldwide.

Key Features of J6S Tracker

- Real-time tracking and historical route analysis
- Geofencing
- Customisable notifications (SOS alerting)
- Data Privacy and Control
- Customisation - Tailored solution as per fleet management needs.
- Scalability - Ability to upscale as per business demands.

J6S Fleet tracking software benefits

Monitor Your Fleet

Monitor and oversee any asset directly from your computer or mobile device.

This encompasses services such as security details, luxury VIP services, large logistical events or any other asset tracking requirements.

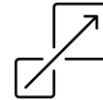

Enhance Fleet Productivity

Leverage fleet monitoring to assess the current location and pinpoint instances of inefficiency. Refine routes based on live traffic updates and react swiftly to any last minute changes or unforeseen circumstances.

Robust Control Panel

Quickly make pivotal decisions using a unified cloud-based control panel designed for activating essential functions, aggregating data, and overseeing user interactions and incidents to ensure the safety of your team.

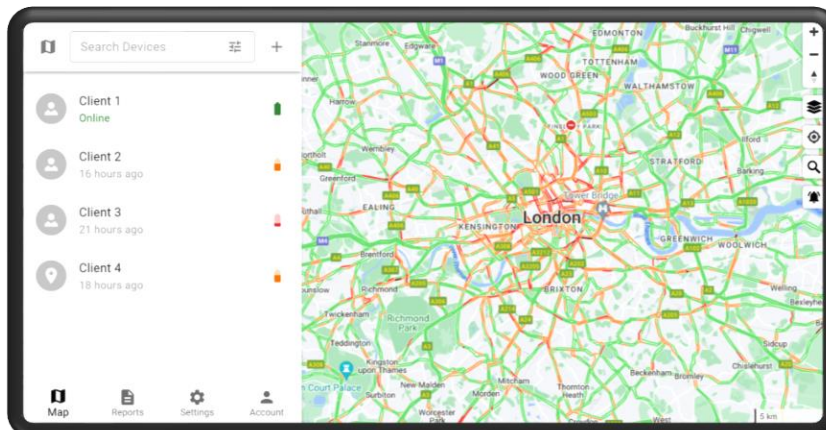

Scalable Approach

Our system is tailor-made to handle surges in demand, adapting to your requirements.

Seamlessly scale from 1 to 1000 users.

Employing top-tier security measures for our web services, we can expediently expand storage and server capacity to cater to your business data needs.

J6 Solutions Principles

Security

Security isn't just a feature; it's a fundamental value woven into the very fabric of our operations and offerings. Security is a core value integral to our operations. In today's digital age, we prioritise robust safeguards at every step. Our team is consistently alert, adopting the newest security measures and continually training to ward off potential threats.

Innovation

We thrive on innovation, continuously pushing the boundaries of what's possible. This commitment to pioneering new solutions has not only enabled us to meet the evolving needs of our clientele but has also positioned us as a trailblazer, shaping the future while delivering unparalleled value today.

Community

We are not merely a team; we constitute a closely-knit community with deep-rooted connections. With various government and military backgrounds within our organisation, we foster a culture marked by unity, trust and mutual respect. We firmly believe that a healthy and supportive working environment is the bedrock of success and growth.

The Pricing Model

At J6 Solutions, we pride ourselves on providing a flexible and competitive pricing model. Our services are structured into tiered packages, tailored with varying levels of support, added features, and personalisation. Recognising the value of long-term collaboration, we also extend special discounts for extended service commitments. For detailed information and potential savings, we invite you to enquire further.
